VANISH is pleased to support the launch of this important book telling the story of one adoption journey to mark the *3rd Anniversary of the Victorian State Apology for Past Adoption Practices* delivered on the 25th October 2012

Adoption Deception: A personal and professional journey is a passionate, heart-wrenching and unflinchingly honest account of one woman's life as an adopted person and her campaign for change. The author presents a compelling argument for Permanent Care instead of adoption for vulnerable children unable to be raised by their families in the light of continuing issues of exploitation, identity loss and the priority given to adults' wishes over children's rights.
